

Evaluating Intervention Strategies: Opportunities and Challenges

Robust evaluation is crucial for contributing to the development of sector-wide knowledge of what works, for whom, and in what contexts, to address risks to equality of opportunity. As providers further develop their evaluation strategies, they are encouraged by the Office for Students (OfS) to consider sharing evaluation expertise or resources with one another and expected to consider how they intend recording, publishing and sharing evaluation activity and findings to maximise understanding across the sector.

At this NERUPI event we will:

- Learn more about the current OfS approach to intervention strategies
- Share the experiences and challenges that evaluators encounter as their intervention strategies are delivered and how the new NERUPI resources can support this process
- Hear from TASO about the plans for the HEEL
- Find out how to use your evaluation findings as a basis for publications in journals
- Explore the range of ways providers can learn from and share their evaluation findings.

◆ 09.30 Coffee and Registration

◆ 10.00 Welcome Annette Hayton, NERUPI

◆ 10.05 Update from the Office for Students Heather Bowyer, Senior Officer, Office for Students

◆ 11.00 Break

◆ 11.30 Delivering Intervention Strategies: Evaluation Challenges Annette Hayton and Dr Joanne Moore, NERUPI

◆ 13.30 Lunch

◆ 14.00 Sharing Evaluation Findings: The TASO Higher Education Evaluation Library Speaker(s) TBC, TASO

◆ 14.45 Sharing Evaluation Findings: Writing for Publication Dr Clare Gartland, NERUPI (Tea and cake will be available during this session)

◆ 15.45 Sharing Evaluation Findings: Improving Practice Dr Sally Griffin, NERUPI

◆ 16.00 Close
